Brief of New Features of Parashara's Light 9.0

- Full compatibility with windows 10 (32 bit and 64 bit), with sharper graphics and touch screen support.
- Many changes in timezone and daylight savings dates from recent years- the world is changing and we move along!
- The new, fully up to date ephemeris will give you more accurate calculations for recent years, and enormous historical range (4700 B.C. to 5400 A.D.).
- Fully unicode compliant giving you more flexibility to use modern day fonts.
- When searching for Muhurtas, the update offers important protection against accidentally giving out wrong times.
- View instant and personalized insights for interpreting planets and houses, without popups or distracting windows.
- Support for True Chitrapaksha Ayanamsha.
- Many new calculations: Bhrihu Point, Mandi, Magnitude of planets, bhavapada calculation etc.
- Sarvatobhadra Chakra is a unique tool for predictions based on Nakshatras. Enhanced Anka value interface.
- Kota Chakra differentiates more sensitive nakshatras with less sensitive nakshatras so that effects of transit of planets in various nakshatras on the health and happiness of a person can be studied.
- Sanghatta chakra helps identify periods of Arishta (misery, mishaps etc.).
- Instantly view the effects of the various new chakras for any past life event.
- Show 7 Karaka report with seven or eight columns.
- Support for new varga charts viz. Astottaramsa etc.
- Support for Tithi Pravesha & Local Tithi Pravesha charts.
- Support for Dasha Pravesha charts.
- Support for Book size printing. Now Parashara's Light has support for file, book and pocket size printing.
- Direct support for printing to PDF. Now print to PDF directly from Parashara's Light without relying on third party tools.
- New Dasha system added viz. Padanadhamsa.
- Additional chara dasa options for advanced users.
- Dasha cells now also show current age for immediate reference.
- Support for Pushkar Navamsha.
- Support for calculation of Rahu Kala.
- Option to show (hyperlinked) karakas in degree chart.
- Support for direct scrolling through dashas and timelines.
- Several new features added to Chart & Table selection viz. Ghat chakra, Avakhada chakra, new timelines etc.
- View applicable yogas side by side with the chart, and see them change when you change the time of birth.
- Show report content on worksheets making it extremely convenient to view interpretations with chart and other calculations.
- See all sign transits for a year at a time, uniquely arranged around the chart.
- See all transits for a quarter or for a year in a fascinating graphical format.
- Improved printing of worksheet, and superb control over layout and graphical design.
- Drag and drop worksheet cells, and resizing of charts and tables to any size.
- Better support for large monitors, tablets and notebooks. Worksheet can accommodate upto 30 charts & tables.
- Set any worksheet to be your "home" screen and many more enhancements!
- Incorporate your favorite image(s) or logo on your screen and printouts.
- Excellent support for taking notes, specific to a person, or general notes.
- Improved support for rectification with a highly configurable setup.
- Change time toolbar, allowing you to change the time of birth or muhurta without popup screens.
- Many new interactive screens with interpretive content from the reports.
- See the current dashas in the animated transits screen.
- Highly enhanced Calendar feature which is now fully customizable.
- Click on days in a monthly calendar to instantly see all the muhurta charts and relate data for that day.
- Powerful design features allow you to design screens to an amazing degree, graphically and content wise.
- Optional Top Toolbar that gives access to all screens organized by category.
- Click on any house, planet, sign, nakshatra and many more points for more info without blocking the screen.
- Step through time to view effects of transits according to various techniques and dig deeper with a single mouse click.
- Highly enhanced search for Chart features.

- 48. Control scaling of fonts in charts & tables.
- 49. Improved Model printing interface.
- 50. Startup screen gives a handy snapshot of current planetary positions along with Nakshatras.
- 51. Printable Panchanga time period extended upto 2035.
